

Training outcomes

This 2-day training program on analytical skills for mid-level finance and risk management professionals will be a combination of lecture-based sessions, group discussions, case studies, presentations, and assessment through a short quiz. The training program will aim to provide participants with practical skills and tools that they can apply in their day-to-day work to make better decisions, communicate effectively, and achieve their business objectives.

Participants will engage in a brief icebreaking activity at the beginning of each day to help them get to know each other and create a more relaxed and collaborative learning environment. Handouts and PowerPoint presentations will be provided to participants to support their learning throughout the training program.

Training Methodology

Highly interactive session including exercises, fun, and activity-based learning in a conducive environment.
