Program Overview

This 2-day training program on analytical skills for mid-level finance and risk management professionals will be a combination of lecture-based sessions, group discussions, case studies, presentations, and assessment through a short quiz. The training program will aim to provide participants with practical skills and tools that they can apply in their day-to-day work to make better decisions, communicate effectively, and achieve their business objectives

Training Methodology:

- Highly interactive sessions including exercises, fun, and activity-based learning in a conducive environment.
- Participants will engage in a brief icebreaking activity at the beginning of each day to help them get to know each other and create a more relaxed and collaborative learning environment. Handouts and PowerPoint presentations will be provided to participants to support their learning throughout the training program.

OBJECTIVES OF THE PROGRAM:

- Develop critical thinking abilities to enhance problem-solving skills.
- Improve data interpretation and analysis techniques.
- Enhance decision-making capabilities based on analytical insights.
- Foster a systematic approach to data collection, organization, and analysis.
